Here's what teachers like you are loving about this **Classroom Community Bundle**!

★★★★★ **Used with post high transition summer program**

They helped students feel comfortable, build connections with their classmates, and create a positive learning environment from the very beginning. The games encouraged participation from all students, including those who are typically shy or hesitant to speak. I was impressed by how engaged and enthusiastic the students were throughout the activities.

– Ashley R.

★★★★★ **Wonderful Activity**

This was a fantastic activity for my classes to complete at the beginning of the school year. They learned so much about their core personality types.
