Here's what teachers like you are loving about this **Student Information Sheet!**

 **Extremely Satisfied**

Great form with important details to know about your students to get to know them and their families. I teach in a school that serves a diverse student body online, so having questions about languages spoken at home and parent communication is key. I edited a few that I didn't need for my groups, but would say I used 95% of the original form :) Very pleased.

 **Extremely Satisfied**

We teach students with emotional disabilities and the first few days are extremely stressful for them - even at the high school level. This helped to break the ice and gave me insight into each student that was helpful through the entire year!
