**MISSION #2: Ship Repair Matching**

**Scenario:**  
After securing the essential items, you now need to repair the ship's failing systems. Various components are malfunctioning, and you must match the problems with the correct repair solutions to restore full functionality.

**Tasks:**

- Match each s successfully v
- Once all repc answer sheet

**MISSION #1: Essential Items Crossword**

**Scenario:**  
Your spaceship has suffered critical damage, and you must gather essential survival items before venturing into the unknown. With limited time, you need to identify and secure key supplies that will help you stay alive in space.

**Tasks:**

- Solve the crossw correct answer
- After completi determine the c

**MISSION #3: Rescue Plan – Missing X**

**Scenario:**  
The ship is repaired, and the navigation system is back online. However, a critical distress message has been corrupted, with key parts missing. To alert the rescue team, you must decode the missing letters and reconstruct the message correctly before time runs out.

**Tasks:**

- Identify and replace the missing "X" letters in the provided distress message.
- Collect all the missing letters and unscramble them to decode the final message.
- After unscrambling the letters, find the ones specified on the answer sheet to determine the code word. Write the code word in the designated box.

**MISSION #4: Final Escape – Break the Code**

**Scenario:**  
Help has arrived, but there is one final obstacle—an encrypted access code preventing escape. The only way to leave safely is to decipher the code and unlock the exit.

**Tasks:**

- Break the code using the provided cipher. Entering the correct code will unlock the final passage and secure your escape from danger.
- After solving the final code, identify the code word using the letter positions from the answer sheet. Write the code word in the designated box.

Each Escape Room Task Card contains detailed instructions for students to complete each puzzle!

**Includes Answer Key + Teacher Manual**
